STEFAN GEVERS

Stefan's work with watercolour typifies the creative and design style of his original homeland in The Netherlands with his approach to minimalism and subtraction.

He takes a contemporary approach to working with watercolour on paper, with all limited editions produced locally using highest quality production methods.

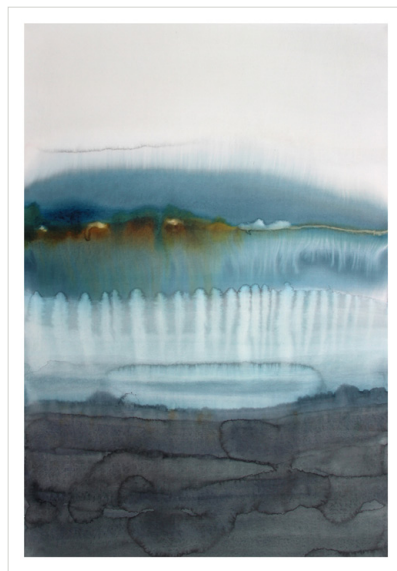

Living permanently in Melbourne since 1999, his work is inspired by many road trips through country Australia. His interest in the natural environment & delicate shifting patterns in nature are often a starting point for paintings in acrylic & watercolour. The form and textures of the landscape are ultimately reduced to a few but exact colour planes.

Stefan's work has been collected by the Victorian & Queensland State Libraries, Artbank Australia, the NAB collection, and numerous private collections throughout Australia and Europe.

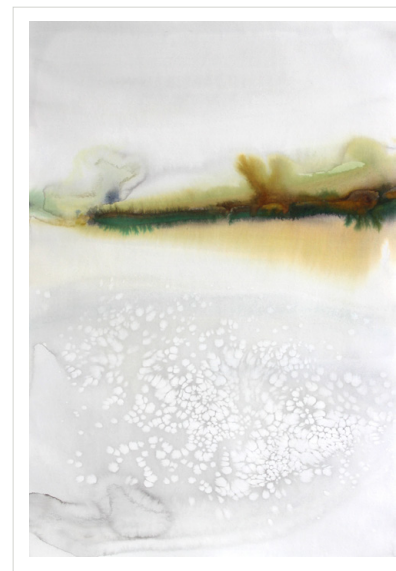

He has been awarded the Yerring Station Sculpture prize, Banyule Art Prize & has exhibited widely as a solo artist and as part of collaborative exhibitions.

FLOW | Evoking the calming energy from the landscape

A0 - 870 x 1200mm

FRAMING

We have selected a simple and elegant framing solution to compliment our range of limited edition artworks. The frame is a deep box of 3cm where the print sits back into the box & away from the plexiglass. This gives space to the print & a simplicity in the overall finish.

Available frame finishes:

RAW OAK
BLACK PAINTED OAK
WHITE PAINTED OAK (custom)

Custom frames with matt board or floating style can be supplied upon request. Plexiglass is used instead of glass for its UV resistance, greater clarity & transparency, sound environmental properties & resistance to damage in handling.

DELIVERY

We work with a local framing company who hand make all our frames & ship orders direct to our customers. Allow Approximately 2-3 weeks for delivery.
