

TASTEOLGY

2023

ABOUT US

Where culinary exploration meets minimalist design. We give you artisan condiments that taste great, look nice on your kitchen benchtop and make beautiful gifts.

TASTEOLGY is a small family affair, created by Nigel Burke & Sara Lundgren, Nigel has always had a passion for cooking and can usually be found in the kitchen, experimenting with new flavours and culinary combinations. Coming from a homewares background, Sara has a strong creative eye, and loves working with packaging and typography. By combining these passions, TASTEOLGY was born.

TASTEOLGY is created with the everyday chef in mind, we want to give you the tools and flavours you need to keep creating in the kitchen. We also encourage everyday luxury, we believe in transforming everyday items into something special. Instead of hiding your spice bottles in the cupboard, we encourage you to bring them out, make them a part of your decor. We don't take shortcuts when it comes to materials or ingredients, it is important to us that each and every product we make is from the best possible ingredients.

Whoever you are, and whatever your kitchen ambitions may be, we hope you will enjoy our products as much as we enjoyed making them for you.

SALTS

AUSTRALIAN MADE | NATURAL INGREDIENTS | GREAT BARRIER REEF SALT

Our salts are 100% natural and no preservatives, additives, or artificial flavouring oils have been used - the taste you get from our salts comes straight from the herbs and is completely natural. The salts are made with a base of sea salt, harvested ethically from the Great Barrier Reef here in Australia. The salts come in a high quality glass bottle with a ceramic grinder which allows you to adjust the thickness of the granules. The bottle is made with sustainability in mind and allows you to refill the bottle with one of our refill packs when empty, giving you a grinder you can use for many years to come.

PEPPERS

AUSTRALIAN MADE | NATURAL INGREDIENTS

Our TASTEOLGY Black Peppercorns are grown and harvested in Vietnam, where the peppercorns are locally dried and sorted before arriving in Australia.

As one of your kitchen staples, peppercorns give a pungent kick to all dishes, elevating the use of other spices used in the recipe. This pepper comes in an oversized, high quality glass grinder bottle with a ceramic grinder which allows you to adjust the thickness of the granules.

Available as Black Pepper, Chilli Pepper, & Gourmet Pepper

EXTRA VIRGIN OLIVE OILS

AUSTRALIAN MADE | NATURAL INGREDIENTS

Our oils are locally made with olives harvested from olive trees grown in Northern NSW. Gently crushed and cold pressed without the use of solvents or refining methods, resulting in Extra Virgin Olive Oil. 100% natural with natural and preservative free flavours.

Available as Olive Oil, Basil Olive Oil, Chilli Olive Oil, Garlic Olive Oil, & Lemon Olive Oil

BALSAMICS

ITALIAN VINEGAR OF MODENA | NATURAL INGREDIENTS

Our Red Balsamic is a dark, thick balsamic vinegar dressing with the added sweetness of fig. It is made from Italian balsamic vinegar of Modena and is delicious on salads and marinades.

Our artisan White Balsamic is light and delicate in taste, and great as a dressing base or marinade. Being lighter than our Red Balsamic, it works perfectly with chicken, fish, and salads.
